Dear Animal friends

Oktober 2020

More and more dogs and cats in and outside of the animal shelter

Every day we get new reports that puppies are found, most of which have no mother. Most of the time the puppies have no chance of survival. We are always happy when a mom is with us, because then there is more hope that they will stay alive.

Cats are also brought to us every day, where the owners simply left their animals here because they had to leave the island as they have no prospect of work in the current situation.

The Corona situation not only makes it difficult for the animals on the island, but the people suffer just as much and fight to survive the difficult times.

At least some of them still have enough "decency" to bring the animals to our main animal shelter in Baan Taling Ngam before they leave the island.

But even there we are almost at the end of our capacities. The shelter is running out of space, the food has to be reduced slightly to feed the many hungry mouths and to prevent us from having to stop castrations and sterilizations due to financial difficulties. In addition, Dr. Sith treat many severely injured animals in need of immediate help.

Thank you for all of your help. We hope that we can continue to count on your support so that we can help even more animals in the future. Our four-legged friends are very grateful for your contribution!
