

## TEMPLE PROJECT AUGUST 2016

In October 2007, the DCRS started providing dog and cat food for many of Samui's temples. In April 2008, the Temple Project-Team (Jay, Linda & Tom) started to not only give food but also vaccinate and provide medical attention to dogs and cats. If absolutely necessary, the injured or sick animal is brought to the shelter for further treatments. Our work includes a lot of street work and many small villages surrounding the temples.

THANK YOU VERY MUCH TO EVERYONE WHO HELPED WITH THEIR FOOD DONATION!

WE LOVE AND BELIEVE IN WHAT WE DO EVERY DAY AND CAN ONLY CONTINUE

THANKS TO YOUR SUPPORT...so **THANK -YOU!**

**THANK -YOU** also to our main food supplier **MAKRO!**

Beside the many temples we deliver dog food to, we also have a good number of big and small food stations all around the island.

Some of them we pass daily and feed the many hungry dogs that live without any food or garbage leftovers close by.

## Before & After doggie

The little puppy LEXO lives in one of the villages we just started working.... he had only little fur left and already open wounds....

....but thankfully we met LEXO in time and started the treatment straight away....

It took some time until Lexo and his mother trusted us... But with some food and patience it worked and we could deWorm and vaccinate all the healthy dogs in the village

Lexo reacted very well to the treatment and his skin recovered well.

Every week we leave some dog food for the people in the village to give to the many dogs they have living with them

How beautiful little  
LEXO looks with just a  
little more fur

...and the constant  
itching has finally  
stopped....

Lexo`s mother we  
took into our shelter  
for one week and  
had her neutered.

She was more than  
happy to be back  
and Lexo jumped  
around like crazy  
when we brought  
her back home....

YOUNG & BEAUTIFUL

A big **THANK YOU** to our dear friend Anna from Germany! She visited the Dog Rescue many years ago when she was still a veterinary student and has since returned a couple of times. Today she is a great and already well experienced vet with a beautiful animal heart. Driven by passion for her work, she has made a lot of positive and often life-saving changes for many Samui-Dog&Cats and we are very happy to call her a personal friend as well! 😊

Beside spending all her `Vacation-Time` at the shelter we were fortunate enough that she also took time to educate our team in many different ways, it was great to have her on board and great fun as well to treat and feed the Temple and Street dogs we are working with.

Anna and Jay in the fight against hundreds of ticks! This Teenager-Family at one of the

temples we work at is completely covered with ticks so we treated them all with Baticol Wash and hope that this will do the trick

Thanks to Anna's experience as a vet, we could treat many animals on the spot and the monks will give the daily medication. Several dogs and cats however were too sick and had to be taken into the shelter where they got treatment straight away.

Anna did not just treat dogs and cats and operate, she was also on board when it came to visiting the food stations with our team...

Anna, we wish you all the very best on your personal journey...  
and say once again thank you for always having a piece of your heart on Samui.  
Thank you for all your support and for being such a wonderful and pretty special friend! You are one in a million!  
See you again soon!

We would also like to Thank 14-year old May from Israel, who for the second year running spent her vacation time volunteering with us.

This year she showed such a keen interest in learning more, that Linda from our Temple-Team let her accompany her as an assistant on her temple-runs.

She learned a lot and Linda was very thankful for the helping hand.

Thank-You Terri from Perth in Australia for keep coming back to our shelter and bring such a great help! We hope to see you again soon.....

Thank-You Julia from Germany for your great help when we hit the road together!

Thank-You Kenny for all the love you had to give to so many little ones and the neverending ticks you removed!!

Every single treatment is being recorded and here are some facts in average numbers from the last 3 months:

*50 Vaccinations / month  
70 Wound cleaning / month  
120 Mange treatment / month*

*45 Animals taken in for  
neutering / last 3 months*

*35 Animals taken in for further  
medical treatment / 3 months*

Every month we deliver over 1,000 kg! of dog and cat food to the temples and the villages -Food Stations included

Some pictures from the work at the Temples in the last 3 months
